**(Update on disclosed matter) Announcement of change of launch date of new services
based on voice and SMS interconnection with NTT DOCOMO, INC.**

Japan Communications Inc. (JCI) agreed with NTT DOCOMO, INC. ("DOCOMO") about voice and SMS interconnection with DOCOMO on February 13, 2024 and announced that JCI plans to launch new services based on voice and SMS interconnection with DOCOMO on May 24, 2026, that is JCI's 30th Founding Anniversary, on press conference and press release ("JCI agrees to voice communication network Interconnection with NTT DOCOMO") on the next day, February 14, 2024.

JCI has proceeded with preparations steadily such as being allotted mobile number, which is eleven digits number starting with 090, etc., and constructing JCI's core network. Upon getting a handle on things of negotiation and coordination with many operators to whom JCI connects voice network, JCI resets the launch date of the above new services to November 24, 2026.

JCI cannot disclose the progress status of interconnection consultation because it is under confidential obligation of Interconnection Terms and Conditions. JCI will disclose the information promptly as soon as disclosure becomes possible.

JCI recognizes that the change of launch date of new services will have minimal impact on our business performance. However, JCI will properly announce any matter that should be disclosed in the future.

About Japan Communications Inc. (JCI)

Japan Communications Inc. (JCI), founded in 1996, is a pioneer who created the MVNO market and has brought innovation to the telecommunications industry. While JCI has established a stable profit model in their major business, simple and rational mobile communication services, JCI is aiming for further growth. JCI has strengths in patented technologies such as the mobile leased line "Closed SIM-to-SIM Communication" and the digital authentication technology "FPoS," and is focusing on providing mobile communication services and digital authentication infrastructure based on the authentication technology. The PCI DSS-certified mobile leased line is adopted by high-security sectors, such as police and bank. The FPoS supports security at the highest global standards and convenience. Under the mission of "carrying bit in safety and security," JCI is aiming for developing social infrastructure such as secure mobile environment beyond national borders and is working on sustainable growth and improving corporate value.
